Re: Water Sample Results

To Whom it May Concern:

Dufferin Water Co. Ltd conducts weekly testing of the treated (potable) water that is supplied to the residents of Maple Leaf Acres. All of the testing conducted in 2017 and up to and including the samples collected until April 19, 2017 indicate that the water meets or exceeds all of the chemical and microbiological standards mandated in the Safe Drinking Water Act.

If you have any questions please call.

Regards,

Joe Miedema P. Eng.
General Manager
